

Thursday 20th October 2022

Time

8:30 - 9:00	Registration	
9:00 - 9:20	Welcome and Symposium presentation	Guillermo Azumendi

9:20 - 11:00 Module 1: Neurosonography

Lectures	Speakers
-----------------	-----------------

20 min	Neurosonography in 1st trimester	Darío Paladini
20 min	SNC ultrasound at 20 weeks. What to look for?	Guillermo Azumendi
20 min	SNC screening in 3rd trimester	Fernando Viñals
20 min	Ventriculomegaly: practical approach of a common finding	Elisenda Eixarch
20 min	Discussion	

11:00 - 11:30 Coffee break

11:30-14:00 Module 2: Neurosonography

20 min	Live scan: routine examination at 20 weeks	Elisenda Eixarch
20 min	Corpus callosum anomalies	Pilar Martínez Ten
20 min	Neurosonography in fetal infections	Gustavo Malinguer
20 min	Malformations of Cerebral Pons	Karina Haratz
20 min	Cavum Septi Pellucidi: the great grass	Fernando Viñals
20 min	Intracranial cysts	Gustavo Malinguer
20 min	Contribution of magnetic resonance in prenatal SNC assessment	Elisenda Eixarch
10 min	Ask the experts	

14:00 - 15:15 Lunch break

15:15 - 17:15 Module 3: Neurosonography. Practical session

20 min	Live scan: SNC screening in 3rd trimester	Fernando Viñals
20 min	Malformations of cortical development made easy	Rabih Chaoui
15 min	Clinical case	Darío Paladini
15 min	Clinical case	Gustavo Malinguer
15 min	Clinical case	Karina Haratz
15 min	Clinical case	Bienvenido Puerto
20 min	Ask the experts	

17:15 - 17:45 Coffee break

17:45 - 19:45 Module 4: Skeletal malformations

20 min	Prenatal diagnosis of reductional abnormalities	Eugenio Antolín
20 min	Fetal hand defects	Carlos Corrales
20 min	Fetal foot defects beyond talipes	J. Ramón Andérica
15min	Congenital hip dislocation	Marisa Borenstein
15min	Spine anomalies	Pilar Carretero
10 min	US approach to fetal hip assessment	Ignacio Alonso
20 min	Postnatal perspective from the pediatric traumatologist	Irene De Gálvez

21:00 Welcome Coctail

Friday 21st October 2022

Time	Lectures	Speakers
9:00 - 11:00	Module 1: The expert point of view	
20 min	Thyroid dysfunction and pregnancy. New Spanish guideline	Ines Velasco
20 min	Endocrine and pregnancy disruptors	Nicolás Olea Serrano
20 min	Perinatal palliative care	Isidoro Narbona
20 min	How to adjust color Doppler	Darío Paladini
20 min	Reflecting on 30 years of learning and teaching fetal ultrasound	Rabih Chaoui
20 min	Discussion	
11:00 - 11:30	Coffee break	
11:30 – 13:45	Module 2: Genetics in prenatal diagnosis	
20 min	cfDNA Overview	Mar Gil
20 min	cfDNA: expanded to all chromosomes?	Jose Luis Bartha
20 min	Prenatal Micro-Array: When?	Mina Comas
20 min	Role of NGS/exome in Prenatal diagnosis	Sara Álvarez
20 min	Prenatal NGS: Lessons learned and clinical cases	Toni Borrell
20 min	Relevance of genetic counselling in prenatal diagnosis. Ethical and legal aspects. What to do and what to avoid. Is it ALL always better?	Ignacio Blanco
15 min	Discussion	
13:45 - 15:00	Lunch break	

15:00 - 17:00 Module 3: Beyond the technique: Medico-legal and social aspects in perinatal medicine.

20 min	Late detection of fetal malformations. Update on late TOP in Spain	Jose M ^a Martinez
20 min	PGD Update	Joyce Harper
20 min	Claims for professional responsibility in perinatal medicine	Juan Antonio Mulá
30 min	Social media: impact in our daily practice	S. Fourier/ M ^a de la Calle / Jakie Calleja
20 min	New technologies in IVF – where is the limit?	Joyce Harper
10 min	Discussion	

17:00 - 17:20 Coffee break

17:20 - 19:00 Module 4 : First trimester

20 min	Detectable fetal malformations in 1st trimester	Darío Paladini
15 min	1st trimester clinical cases	Juan Luis Delgado
15 min	1st trimester clinical cases	I.Narbona / P. Azumendi
20 min	Fetal echocardiography in 1 st trimester before 15 weeks	Rabih Chaoui
15 min	Invasive procedures: tips and tricks	Paqui Molina
15 min	Discussion	

19:00 – 19:30 Awarded posters

5 min	Lecture of the first awarded poster.
5 min	Discussion
5 min	Lecture of the second awarded poster
5 min	Discussion
5 min	Lecture of the third awarded poster
5 min	Discussion

21:00 Dinner party

Saturday 22nd October 2022

Time	Lectures	Speakers
9:15 - 11:10	Module 1: Fetal growth	
30 min	Definition and prediction of SGA	Kypros Nicolaides
20 min	Late IUGR	Francesc Figueras
20 min	Fetal Doppler vs Fetal weight for arranged delivery?	Basky Thilaganathan
20 min	Angiogenic factors in IUGR	Daniel Orós
25 min	Discussion	
11:10 - 11:40	Coffee break	
11:40 - 14:00	Module 2: Preeclampsia	
30 min	Preeclampsia : Overview	Kypros Nicolaides
20 min	Implementation of different prevention programs	Mar Gil
20 min	How to prevent late preeclampsia and its complications	Francesc Figueras
20 min	4th trimester	Basky Thilaganathan
20 min	Preeclampsia in twins: what can be done?	Katy De Paco
30 min	Discussion	
14:00 - 15:15	Lunch break	

15:15 - 16:25 Module 3: Let's talk about gender

40 min	Clinical cases of DSD (includes fetal uterus identification)	M. Borenstein / I. Alonso
20 min	Gender perspective in Prenatal diagnosis. Do we accept the challenge?	B. Lorente / L. Pratcorona
10 min	Discussion	

16:25 - 17:25 Module 4: Reinterpreting the CTG

60 min	Physiopathological interpretation of CTG	Anna Gracia Perez-Bonfils
---------------	--	---------------------------

17:25 - 17:45 Coffe Break

17:45 - 19:50 Module 5: Updating concepts

15 min	News on preterm delivery	Lorena Sabonet
20 min	Placental acretism	Walter Plasencia
20 min	Misdiagnoses. How do we handle them?	Elena Carreras
20 min	Clinical cases on non immunologic fetal hydrops	Eugenia Antolín
20 min	Peripartum ultrasound	Jose Antonio Sainz
20 min	Role of expert high-resolution 2nd trimester ultrasound	Rabih Chaoui
10 min	Discussion	

Sunday 23rd October 2022

Time	Lectures	Speakers
9:00 - 11:00	Module 1: Prenatal echocardiography: From the images towards the diagnosis	
15 min	Live scan: fetal heart examination	Alberto Galindo
20 min	How to improve our detection of major cardiac malformations	Fernando Viñals
20 min	Genetic testing in congenital heart defects in the exome era. Do we always need it?	Rabih Chaoui
20 min	Prognostic factors in fetal CDH	Dario Paladini
15 min	Discussion	
15 min	Clinical case	Alberto Galindo
15 min	Clinical case	J.M. Martinez
11:00 - 11:30	Coffee break	
11:30 - 13:45	Module 2: Prenatal echocardiography: From the images towards the diagnosis	
20 min	Live scan: Functional cardiac assessment	Fátima Crispí
15 min	Clinical case	Fátima Crispí
15 min	Clinical case	Alberto Galindo
15 min	Clinical case	Albert Tubau
15 min	Clinical case	J.M. Martinez
15 min	Clinical case	Fernando Viñals
15 min	Clinical case	J.M. Martinez
25 min	Discussion	A. Galindo / J.M. Martinez
13:45	Simposium end	Guillermo Azumendi
